DESKTOP FRAME STYLES — USED ACROSS THIS DECK

matchwise.ph/dashboard

O1 · Browser Frame

macOS traffic lights + address pill showing the live URL. Used for full product screens — reads as the real web app.

O2 · Minimal Frame

Thin 1px hairline + tiny window dots only — no browser chrome. Used for modals, cards, auth panels and floating details.

NAMING — CONTEXTUAL REBRAND

MW

MatchWise

is the name of the **system / platform** — product wordmark, landing pages, applicant & employer experience.

FIRA remains the **company** that operates it — FIRA Staff workspace, governance, compliance and endorsements carry the company name.

DUAL MODE

Light — Public & Auth

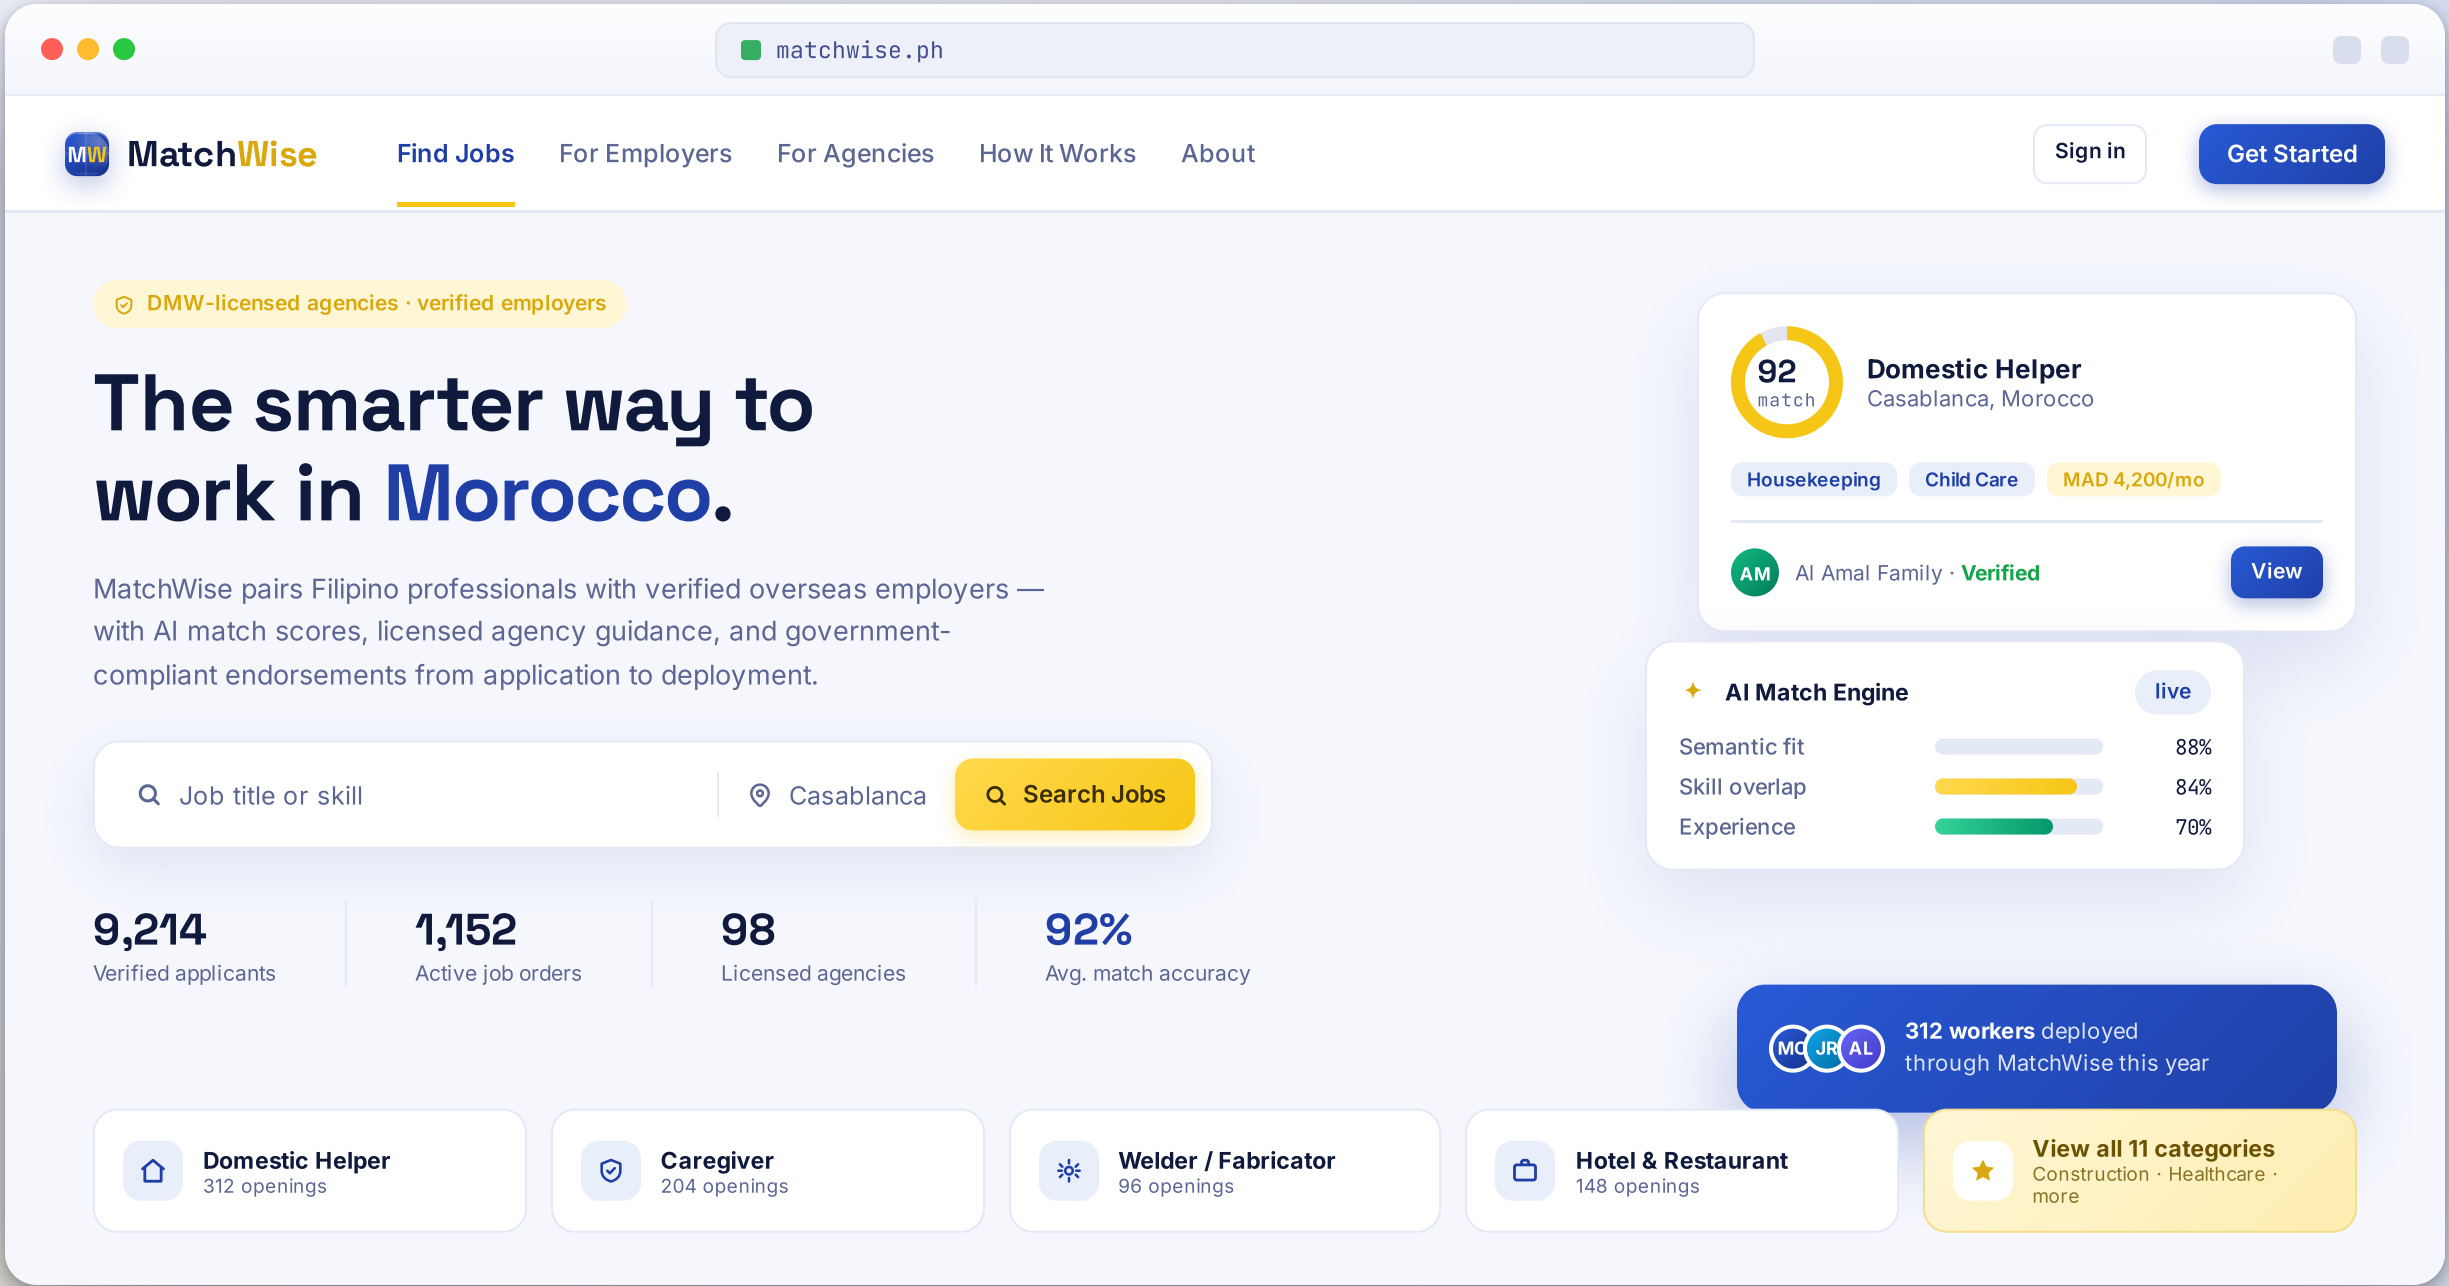

Landing, job discovery, login / register. Clean, trust-first, gold CTAs.

Dark — Product & Ops

Dashboards, ATS, matching, command center. Focus-first, gold signals.

Design System

One palette from the logo, three type roles, two frame styles, dual-mode surfaces — every screen that follows is built from this system.

Landing — trust-first public hero

Browser frame · light mode. Gold anchors every action; AI match engine and deployment proof are surfaced above the fold alongside licensing trust marks.

Management tables — 1,152 job orders, zero ambiguity

Every row pairs employer and agency accountability with match quality (top score) and workflow state. Bulk review actions keep the queue at zero.

Every match is a **weighted, explainable score**

Resume and job description are encoded with SBERT; skill overlap and experience complete the signal. A RandomForest ranks the pool — with a deterministic fallback so the platform never stalls.

**Explainable by design**
Each score ships with per-factor breakdown shown to applicants and employers.

**Never stalls**
5-second timeout falls back to a deterministic heuristic — scoring always completes.

**Auditable**
Scores persist to AIAnalysisResult for review, QA and model retraining.

The engine room — weights you can read, numbers you can trust

This is the pipeline behind every match ring in this deck: 0.40 semantic + 0.40 skills + 0.20 experience, scored by RandomForest with a guaranteed fallback path.

One Platform. **Smarter Matching.** Better Hiring.

- AI Match Score — 0.40 / 0.40 / 0.20
- 19-state status machine
- Two-step endorsement gate
- FIRA-operated oversight

Ready for build handoff — design system, 20 screens, and the engine behind them

Proceed to Development

Salamat — MatchWise by FIRA

Delivered alongside the data dictionary: 35 tables and 358 fields aligned to this design — the system and the data speak the same language.
